WORK EXPERIENCE

Lead API & Integration Architect
2022 – Present   *@LeasePlan Digital / Ayvens*

As LeasePlan Digital's Lead API & Integration Architect, I guide an 11-member team in implementing strategic API initiatives, defining API strategy, ensuring secure API communication, and designing integration landscapes. I consistently foster a future-proof integration architecture by delivering innovative solutions and streamlining practices.

Founder
2022 – Present   *@Alroze Technologies*

As the Founder of Alroze Technologies, I provide tailored consulting services, primarily in the domains of software architecture, software development, and 3D printing.

Solutions/Domain Architect
2020 – 2022   *@ING*

As a Solutions/Domain Architect within Banking Technology Platform, I have been the responsible architect of Open Banking enabling ING becoming a platform bank of the future. In addition to my role as Open Banking Architect, I have also contributed to the Banking Technology Platform Architecture.

Consumer Engineer
2019 – 2020   *@ING*

In my role as a Consumer Engineer of Touchpoint Platform at ING, I collaborate with diverse stakeholders to build effective, reusable solutions primarily through makeathons and PoCs, simultaneously driving platform enhancements based on consumer experiences. Additionally, I standardize existing and emerging consumer patterns for the platform.

Dev Engineer IT Innovation
2016 – 2019   *@ING*

As a key member of IT Innovation, I have worked in designing and implementing the global API Management Solution as the Product Owner in collaboration with many ING colleagues around the World and afterwards as the Product Owner of API Design and Governance.

Sr. Software Engineer & Software Architect
2012 – 2016   *@ING Turkey*

As a Sr. Software Engineer & Software Architect, I've designed SOA-based application middleware, led key transformations like xNext and Smart banking applications, and spearheaded the creation of a custom ASP.Net Web Api & AngularJS management web application while institutionalizing CI & CD processes.

Software Development Specialist
2011 – 2011   *@STRATEGIA IT*

Engineer & Analyst Developer
2010 – 2011   *@Turkish Airlines*

EDUCATION

Computer Engineering B.A.
2007-2011   *@Halic University*
